COURSE OVERVIEW

This one-day program will provide neonatal nurses with the most up-to-date information on a variety of complex neonatal issues. Research and technology are constantly expanding. This program will review some of the latest therapies utilized in the treatment of the sick neonate.

GENERAL INFORMATION

The conference will be held on the first floor of the Ruth and Tristram Colket, Jr. Building. The registration fee is \$125. The registration fee includes buffet breakfast, breaks, lunch and parking. As part of our going green initiative, syllabus material will not be distributed at the conference, but will be available online up to one week prior and two weeks following the conference. Tours will begin at the conclusion of the program. Please note on the registration form if you will be staying for a tour.

COURSE OBJECTIVES

Upon completion of this course, participants should be able to:

1. Understand what severe combined immunodeficiency means to the newborn
2. Identify reasons why or why not a newborn is placed on ECMO
3. Discuss ramifications of a DNR order in the delivery room setting
4. Understand how the principles of palliative care can be applied to planning for patients who will be born with a life-limiting disease

CONTINUING NURSING EDUCATION APPROVED PROVIDER STATEMENT
